

ASW338LM

ASYMMETRIC WARRIOR® PRECISION TACTICAL RIFLE SYSTEM

THE MEDIUM CALIBER ASYMMETRIC WARRIOR® ASW338LM PRECISION TACTICAL RIFLE

is engineered and designed to provide users with an ergonomic, long range and highly accurate .338 Lapua Magnum rifle platform. This precision tactical rifle is proudly manufactured in the USA and built on the strong Surgeon 1581 XL-II bolt action receiver, and the patented SABER®-FORSST® MOD-1 modular rifle chassis. The ASW338LM is available in an A1 (5-rd magazine) and A2 (10-round) configuration. The ASW338LM is an ideal tactical rifle platform for launching high performance .338LM caliber COR®BON Match, sub-sonic and RUAG Swiss-P match grade ammunition accurately to extended ranges.

The ASW338LM is available with a 20" or 27" length, 1-in-9.4" twist Pinnacle Series 416 stainless steel fluted barrel, safety and performance engineered using APO's proprietary B.A.S.E.D.™ barrel engineering software. The ASW338LM Pinnacle Series barrel is finished with an 11 degree target crown and Blackout muzzle brake, making this tactical rifle mission ready to mount an optional TITAN QD titanium sound suppressor. The ASW uses a premium tactical two-stage trigger set to 3.5 lbs for a smooth take up and crisp let off for precision sub-MOA shot placement.

The ASW338LM features a continuous full length MIL-STD 1913 30MOA monolithic 12 o'clock scope rail (optional 20 or 40 MOA) that accommodates a variety of modern "clip-on" thermal imaging and night vision devices. The Quattro carbon fiber forend features a heat mirage mitigating design with repositionable 12" and 4" accessory rail locations "co-bore aligned" on the ergonomically shaped forend at 3, 9 and 6 o'clock positions.

The ergonomic folding SABER PBA-H (Push Button Adjustable Hybrid) shoulder stock is fit to the user with adjustments for length of pull, cheek-piece height, and vertical recoil pad placement that require no tools! The shoulder stock comes with a Butt Hook as standard equipment and there is a versatile multi-position adjustable field Monopod available as a user installable option.
