For Today's Outdoorsmen

The SABER M700 Precision Rifle is designed for recreational rifle shooters, hunters and rifle sports competitors who desire the form, fit and functionality of an AR with the proven dependability and accuracy of the legendary Remington Model 700™ bolt action rifle. Accurate, dependable and entirely reconfigurable, the new SABER M700 Precision Rifle is proudly made in the USA! The SABER M700 features the highly accurate Remington Model 700 AAC-SD barreled action and X-Mark Pro trigger. The lightweight, low maintenance Ashbury MRCS-AR modular rifle chassis needs no epoxy bedding to provide 1 MOA or better accuracy in this precision engineered rifle platform.
