The **TACT3** family of tactical tripods are rugged combat proven field stabilization platforms for spotting scopes, thermal imagers, laser range finders, laser pointer/illuminators and other modern tactical optics. The **TACT3-GP** was selected by the US Army for the snipers Tactical Tripod Kit in support of the M151 tactical spotting scope. This versatile tactical field tripod allows snipers to employ optics from prone to sitting positions. Constructed of high strength light weight aluminium alloys, all **TACT3** deploy quietly and provide rock solid stability necessary for sniper reconnaissance, target interdiction, observation, and surveillance missions.
