TCR MAGNUM SERIES TACTICAL COMPETITION RIFLE

THE TCR MAGNUM CALIBER TACTICAL COMPETITION RIFLES ARE ENGINEERED AND DESIGNED TO PROVIDE

users with a versatile rifle platform in .300 Winchester Magnum or .338 Norma Magnum calibers. This precision tactical rifle is proudly manufactured in the USA and built on the strong Surgeon 1086-II bolt action receiver, and the patented SABER®-FORSST® MOD-0 modular rifle chassis. TCR300 and TCR338NM are available in the A1A 5-rd magazine configuration. TCR's are barreled with Pinnacle Series 416 stainless steel fluted barrels that are safety and performance engineered using APO's proprietary B.A.S.E.D.™ barrel engineering software. The TCR Pinnacle Series barrel is finished with an 11 degree target crown and FTE muzzle brake.

An optional Muzzle Thread Protector or sound suppressor can be paired with the FTE muzzle brake. TCR rifles use a premium tactical two-stage trigger set to 3.5 lbs for a smooth take up, and crisp let off for precise sub-MOA shot placement.

TCR rifles feature an ergonomic MOD-O Quattro carbon fiber forend that is comfortable in the off-hand shooting position and reduces heat mirage. Additionally the forend has 12 o'clock and 6 o'clock MIL-STD 1913 accessory rail locations that accommodate "clip-on" night vision devices and repositionable bipods along the bottom length of the forend.

The fixed SABER HTA ergonomic shoulder stock has tooled adjustments for length of pull, cheek-piece height, and vertical recoil pad placement. The Butt Hook rounds out the shoulder stocks functional design for precision shooting, and a versatile multi-position adjustable field Monopod is an available option. TCR rifles have flush cup sling swivel attachment points along the length of the rifle.
